EVERY CARE WILL BE TAKEN WITH YOUR MARE/FOAL BUT NO RESPONSIBILITY WHATSOEVER IS ACCEPTED FOR ACCIDENT, DISEASE, INJURY OR DEATH TO MARE AND/OR FOAL WHILST VISITING THE STUD.

EQUINE VIRAL ARTERITIS (EVA) tests to be taken after 1st January 2025:

1. All mares that have NOT been outside the United Kingdom and Ireland within the last 12 months will require two negative blood tests. The first should be taken as soon as possible after 1st January 2025. A second test should be taken close to and no more than 30 days before the first time of covering. Further blood tests may be required to ensure that the mare is tested within 30 days of each subsequent covering.

Seropositive mares will require two blood tests a minimum of 14 days apart to be taken in early January, these should demonstrate a stable or declining titre. Further tests within 30 days of mating can be compared with these.

2. All mares originating from outside the UK and Ireland will require two negative blood tests, the first to be taken within a 28-day period prior to arrival in the UK, with the second to be taken at the boarding stud, a minimum of 14 days after arrival and before the mare is released from isolation. The mare can then be covered providing that mating takes place within 30 days of this test. Otherwise further tests will be required so that negative results are obtained within 30 days of this and any subsequent coverings.

Seropositive mares will require two blood tests to be taken initially in the UK. These should be taken a minimum of 14 days apart and demonstrate a stable or declining titre. Further tests within 30 days of mating can be compared with these.

3. NB. If a mare should leave the boarding stud after service or scanning in foal and thereafter wish to return during further oestrus periods, it may be necessary to provide a further negative EVA test.

At the studs discretion we may on occasion sedate your mare to facilitate her being covered and may also use semen extender. You shall indemnify us and keep us indemnified from and against all claims, damage, losses, costs (including, without limitation, all reasonable legal costs), expenses, demands or liabilities arising out of or in connection with these procedures whilst your mare is under our care. For these procedures and if any other veterinary attention is required whilst you mare/foal is under our care they will be subject to the terms and conditions of our veterinary provider which are available here: <https://pinkhamequine.com/terms-conditions/>
